TECHNICAL SKILLS

- Python • Pandas
- Java • NumPy
- SQL • Matplotlib
- Excel • Machine Learning

CAREER OBJECTIVE

Passionate about AI and Data Science, driven by curiosity and innovation. Eager to learn, adapt, and transform data into impactful solutions for organizational growth

PROJECTS

1. Malicious app detection using ML

Developed a platform to detect the malware applications on the mobile. These models were trained on a dataset of both malicious and benign application to learn patterns associated with malicious behaviour.

Work Flow: Feature extraction, Model training, Prediction

2. Speech emotion recognition using Deep learning

SER using Deep learning involves automatically identifying and classifying emotions from speech signals.

Deep Learning Models: CNN and LSTM

EDUCATIONAL CONTOUR

B.TECH Artificial Intelligence and Data Science 8.18

Vel Tech High Tech Dr.Rangarajan Dr.Sakunthala Engineering College (2022 - 2026)

Diploma (2019-2022) 76%

AMK Technological Polytechnic College

SSLC 70.2%

Sri SB Vijaya Reddiar Memorial matric hr sec school

INTERNSHIPS

1. Python with Data science– NSIC Internship (On site)

PROFESSIONAL SKILLS

- Resilience
- Time Management
- Communication
- Adaptability

CERTIFICATION

1st Price in Aavishkar Conference

WORKSHOPS

MATLAB – MATHWORKS
CLOUD COMPUTING Workshop
